

```
public class MainSA
{
    public static void main(String[] args) {
        String[] numArray = {"one", "two", "three", "four", "five"};
        int len = numArray.length; //get the length of array
        System.out.println("Length of numArray{\"one\", \"two\", \"three\", \"four\",
        \"five\"}:" + len);
    }
}
```
